

# TN FFA 2021 Virtual CCM and Parli Pro Presentation Guide

Please use the following diagrams to setup your presentation rooms for CCM and Parli Pro. The following points should be considered:

- This room setup is important for each team when placing cards for judges.
- Your testing proctor will print the presentation cards, seal them separately in an envelope, and label them with the position in the room. This label will be consistent with the following diagrams.
- Judging will begin with the students standing in front of their chair with the sealed envelope that corresponds with that chair.
- The 1-minute prep will begin with them opening the envelope as they sit.
- Camera angles can be adjusted, but the seating layout should stay the same
