

## **2022 Tennessee YF&R Discussion Meet and Collegiate Discussion Meet Topics**

1. How can Farm Bureau effectively support and equip young farmers and ranchers to successfully manage economic and infrastructure challenges to ensure healthy and sustainable farms and ranches across the country?
2. Due to current economic demands, many farmers and ranchers spend a lot of time outside the “fence rows” on off-farm jobs. How can Farm Bureau become more accessible and welcoming to members who are working in related fields and juggling responsibilities on and off the farm?
3. Climate has become a major topic among business leaders, policymakers and consumers. As an industry that depends on the weather, what role do we as farmers and ranchers play in shaping climate initiatives to benefit society overall as well as our own farms and ranches?
4. Advancements in autonomous equipment and drone technology offer solutions to challenges farmers and ranchers have faced for years. How can Farm Bureau improve access to, and help farmers and ranchers deploy, these emerging technologies on their operations?
5. Many external influences are causing supply chain disruption for agricultural goods. How can Farm Bureau reduce the impact of external influences through policy development and programming?

These are the topics for the 2022 Tennessee Collegiate Discussion Meet July 15-16 during YF&R conference in Lebanon, TN and the 2022 Tennessee Farm Bureau YF&R Discussion Meet held December 3-4 during TFBF Convention in Franklin. These will also be used for the YF&R Discussion Meet held during 2023 AFBF Annual Convention in Puerto Rico and the Collegiate Discussion Meet held during the 2023 FUSION Conference in Jacksonville, FL.
