ENTERING CHB

All visitors to CHB must go through a security checkpoint before gaining access to the building. Similar to airport security, all bags and coats must pass through an x-ray machine and individuals must pass through metal detectors. In addition, all visitors must present photo identification at the security checkpoint.

FINDING YOUR WAY AROUND

CHB is a 10-floor building, including the ground floor, on which you will enter. A central bank of elevators located just past security will take you to all floors. In addition, a central staircase connects the ground, first and second floors.
